

CORE HEALTH STATUS INDICATORS
FORM C1 - MULTI-YEAR DATA

		<u>Annual Indicator Data</u>			
	FY__	FY__	FY__	FY__	FY__
<u>CORE HEALTH STATUS INDICATOR #01</u>					
(Ambulatory Sensitive Condition)					
<i>The rate of children hospitalized for asthma (ICD-9 Codes: 493.0 - 493.9) per 10,000 children less than five years of age. (Access)</i>					
Annual Indicator	_____	_____	_____	_____	_____

Numerator	_____	_____	_____	_____	_____

Denominator	_____	_____	_____	_____	_____

<u>CORE HEALTH STATUS INDICATOR #02A</u>					
(Adequacy of Primary Care)					
<i>The percent of Medicaid enrollees whose age is less than one year during the reporting year who received at least one initial or periodic screen. (Access)</i>					
Annual Indicator	_____	_____	_____	_____	_____

Numerator	_____	_____	_____	_____	_____

Denominator	_____	_____	_____	_____	_____

<u>CORE HEALTH STATUS INDICATOR #02B</u>					
(Adequacy of Primary Care)					
<i>The percent of SCHIP enrollees whose age is less than one year during the reporting year who received at least one initial or periodic screen. (Access)</i>					
Annual Indicator	_____	_____	_____	_____	_____

_____	Numerator	_____	_____	_____	_____
_____	Denominator	_____	_____	_____	_____

CORE HEALTH STATUS INDICATORS
FORM C1 - MULTI-YEAR DATA (Continuation Page)

	<u>Annual Indicator Data</u>			
FY__	FY__	FY__	FY__	FY__

CORE HEALTH STATUS INDICATOR #03
(Prenatal Care Participation)

The percent of women (15 through 44) with a live birth during the reporting year whose observed to expected prenatal visits are greater than or equal to 80 percent on the Kotelchuck Index. (Prevention)

Annual Indicator	_____	_____	_____	_____

Numerator	_____	_____	_____	_____

Denominator	_____	_____	_____	_____

CORE HEALTH STATUS INDICATOR #04A
(Low Birth Weight)

The percent of live births weighing less than 2,500 grams. (Risk)

Annual Indicator	_____	_____	_____	_____

Numerator	_____	_____	_____	_____

Denominator	_____	_____	_____	_____

CORE HEALTH STATUS INDICATOR #04B
(Low Birth Weight - Singleton Births)

The percent of live singleton births weighing less than 2,500 grams. (Risk)

Annual Indicator	_____	_____	_____	_____

_____	Numerator	_____	_____	_____	_____
_____	Denominator	_____	_____	_____	_____

INSTRUCTIONS FOR THE COMPLETION OF CORE HEALTH STATUS INDICATOR FORM C1 TRACKING CORE HEALTH STATUS INDICATORS 01 THROUGH 05

General Instructions:

A glossary of terms applicable to this form is presented in Section 5.1 of this document.

Complete all required data cells. If an actual number is not available make an estimate. Please explain all estimates in a footnote.

The purpose of this form is to show, annually, selected measurements (indicators) of MCH health status in the State and to track those indicators over a five year period.

The first five core health status indicators deal with data that is to be tracked and displayed over five years. Some of this set of core indicators have two or three parts resulting in a total of eight data elements that are to be completed. Specific instructions, by Core Health Status Indicator number, are provided below.

For each of the Core Health Status Indicators, on the lines labeled "Annual Indicator", enter the numerical value that shows the status for the indicator for the appropriate reporting year. Note that the indicator data is to go in the years column from which it was actually derived even if the data is a year behind the "reporting" year. This value is to be expressed in the units that are described on the health status indicator detail sheets which, for these indicators, is either a rate or a percentage.

If there are numerator and denominator data for the indicator value, enter those data on the appropriate lines for the appropriate fiscal year. If there are no numerator and denominator data, leave these lines empty.

Specific Instructions

Core Indicator #01 (Ambulatory Sensitive Condition) There is one part to this indicator. The value is to be expressed as the hospitalization rate per 10,000 children less than 5 years of age.

Core Indicator # 02 (Adequacy of Primary Care) There are two parts to this indicator (A and B). The values are to be expressed as percents of Medicaid or SCHIP enrollees who received at least one initial or periodic screen in the age ranges indicated.

Core Indicator # 03 (Prenatal Care Participation) There is one part to this indicator. The value is to be expressed as a percent of women (15 through 44) with a live birth whose observed to expected prenatal visits were greater than or equal to 80 percent on the Kotelchuck Index.

Core Indicator # 04 (Low Birth Weight) There are two parts to this indicator (A and B). The values are to be expressed as percents of total or singleton live births weighing less than 2,500 grams.

Core Indicator # 05 (Very Low Birth Weight) There are two parts to this indicator (A and B). The values are to be expressed as percents of total or singleton live births weighing less than 1,500 grams.
